

Saint Paul Public Schools
 Secondary Class Size Report
 2004-2005 School Year

Introduction

The following report indicates class sizes in secondary grades in Saint Paul Public Schools as of mid-October, 2004. The table for each school shows the average class size in each of the eight largest subject areas in senior high schools, plus the school-wide average size for non-Special Education classes. Also noted is the number of periods in the day and the number of terms in the school year at each school.

The report is based on the number of students scheduled to be in a classroom. If the schedule is not identical each day of the week, the number calculated is the average number of scheduled students for the week. If there are multiple levels of the same subject being taught in one class (e.g. French 4 and 5), they are reported as a single class. In some cases, additional staff share the instructional duties, either helping the teacher with the entire class or working with selected groups of students within the class.

Senior High Schools

Arlington Senior High School

October 1 enrollment	1912
Periods in school day	4
Terms in school year	4

Subject	Number of Classes	Average Class Size	Classes over 35
English (regular)*	45	23.0	7
English as a Second Language	18	22.1	1
